#IT is amazing  
Slim, light, smart

ITB

# #IT is all you need

## Handy, portable, efficient!

The equipment of the ITBikes was deliberately reduced to the essentials.

The latest electronics and carefully selected components are not only a guarantee for natural and intuitive fun riding, but have been specially designed with a focus on low-maintenance service.

# #IT is easy

A major difference from most other lightweight bikes on the market, where the battery is permanently installed in the frame, is our click and grab system, for a super easy battery removal.

IT3

# #IT is intelligent

Uncomplicated, fast and inexpensive maintenance is becoming increasingly important. Today's smart bike must be at the level of its modern rider.

State-of-the-art technology and software solutions guarantee fun without limits and saves you money and annoying waiting time.

## IT is all about data

A key factor is our strong software development team. The super smart IOT & APP functions are generating a large amount of bike data. Through this data, we understand more about customer needs. The provided user experience are qualified information which we need for future product upgrades and after-sales service improvements.

# #IT is wooww!

## So, what is it about ITBikes?

Our customers love the freedom that an E-Bike gives them. At the same time, these riders don't want bulky, heavy bikes that they can barely carry up the stairs. They know their riding habits and that they don't need a big motor or battery. Still, they want that extra kick only an E-Bike can provide.

# IT Girl

## Technical Specifications

<b>Frame</b>	Aluminium or Carbon, different sizes available
<b>Motor</b>	New Bafang H700 rear hub motor, built in automatic drive system
<b>Battery</b>	Removable, inframe 36V 10AH Samsung, 5000 mah
<b>Motor power</b>	250 W
<b>Support</b>	Up to 25 km/h
<b>Crank sets</b>	Gates, CT11555AA 55T, Aluminum Alloy
<b>Belt drive</b>	Gates, 11M-122T-12CT
<b>Flywheel</b>	Gates, CT1122SVN 22T Cassette
<b>Display</b>	Integrated LED color display
<b>Brakes</b>	Tektro, HD-R280, hydraulic disc brake
<b>Tyres</b>	CTS 1635 28x2.0 Schrader valve with inner tube
<b>Weight</b>	Approx. 19 kg
<b>Optional</b>	Front/rear lights, mudguards, carrier
